

ORTHO LAZER

Orthopedic Laser Center

OrthoLazer offer patients suffering pain and inflammation associated with soft tissue injuries, nerve pain, arthritis, and surgery an innovative and alternative approach to reducing their pain and recovering faster. Our approach is drug free, painless, non-invasive, and completely free of side effects. OrthoLazer Centers are designed with the patient in mind. We combine state of the art technology, facilities, and software to provide patients with fast and easy access to scheduling and completing the treatments they need.

HOW IT WORKS

Our OrthoLazer Center uses the MLS M8 Robotic Laser - the most advanced laser available in the United States market today. It works by emitting specific wavelengths of light energy into the damaged cells which stimulates intracellular activity, reduces pain and accelerates recover time.

COMMON USES

Knee Pain

ITB Tendinitis
Knee Arthritis
Meniscal Tears
Dislocation
Patellofemoral Syndrome
Stress Fractures

Head & Neck Pain

Cervical Arthritis
Neuralgia
Neuropathy

Shoulder Pain

Rotator Cuff Pain
Bursitis
Calcific Tendinitis

Foot Pain

Plantar Fasciitis
Fractures
Sprains & Strains
Achilles Tendinitis

Elbow Pain

Tennis Elbow
Golfer's Elbow

Back Pain

Dorsal Arthritis
Lumbar Pain
Sciatica

Hip Pain

Hip Arthritis
Labral Tears

PATIENT BENEFITS

- Rapid pain relief
- Strong anti-inflammatory effect
- Accelerated injury repair
- Arthritis and degenerative conditions treatment
- Post-surgical incisions healing
- No proven side effects
- Drug-free
- Non-surgical and non-invasive
- FDA-approved
- Affordable Care
- Health Savings and Flex Spending Accounts are accepted

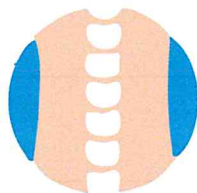

ORTHO LAZER TREATS:

ELBOW PAIN

BACK PAIN

SHOULDER PAIN

KNEE PAIN

HIP PAIN

HAND PAIN

FOOT PAIN

HEAD & NECK PAIN

HOW DOES LASER THERAPY WORK?

Light energy enters the damaged cells and stimulates intracellular activity. This reduces pain in the area and speeds recovery of the damaged cells. Once the healing process is complete.

WHAT CAN I EXPECT DURING TREATMENT?

MLS M8 Robotic Laser Therapy is a painless treatment that lasts an average of 4-10 minutes. You may experience a comfortable sensation at the point of application.

HOW MANY TREATMENTS WILL I NEED?

Most patients experience positive results within 3 to 5 treatments. The average number of treatments for acute pain is 6 treatments and for chronic pain is 12 treatments.

WHAT IS MLS M8 ROBOTIC LASER THERAPY FDA-APPROVED FOR?

MLS M8 Robotic Laser Therapy is FDA-approved for the relief of pain, inflammation, and edema.
